## FULL STACK DEVELOPER

As a passionate and forward-thinking technology student, I am driven by the curiosity to explore and master cutting-edge concepts in the world of Information Technology. Currently pursuing Master in Computer Application at Ajeenkya Dy Patil University, I am dedicated to honing my skills and embracing innovation in the ever-evolving tech landscape.

---

## KEY COMPETENCIES

Process improvement	Critical thinking skills	Strong interpersonal skills
Data-driven strategic planning	Communication skills	Proactive and self-motivated
Cost-benefit analysis	Exceptional organisational skills	

---

## PROJECTS

### Anime Quote Gallery - HTML && CSS

Developed and implemented an Anime Quote Gallery project utilizing HTML and CSS. Demonstrated proficiency in front-end web development by creating an aesthetically pleasing and responsive user interface. Applied HTML for structuring content and CSS for styling, ensuring a visually engaging and user-friendly experience.

### Social Work Website

Initiated and led the development of a community-centric social work website dedicated to showcasing ongoing social initiatives within my hometown. Designed and implemented the user interface to effectively represent our community's impactful work. Currently overseeing the final stages of development with plans for a live launch. This project not only demonstrates my proficiency in web development and design but also underscores my commitment to leveraging technology for community betterment.

### Photography Website

Collaboratively participated in a group project during my BCA degree, contributing to the design phase for a photography website. Played a key role in creating an engaging and visually appealing interface to showcase the portfolio effectively. This experience honed my skills in web design and teamwork, highlighting my ability to contribute creatively to a project within a group setting.

## MINI PROJECTS

- Follow logo icon
- Historical Places website
- Hidden Social Media Icons
- Tic Tac Toe game!
- Stopwatch Web Application!

## SKILLS

- HTML
- CSS
- JAVA
- PYTHON
- JavaScript
- Sql DataBase

## CERTIFICATIONS

---

### Front End Developer

In this free, self-paced Front End Development course, I acquired a solid foundation in CSS. The curriculum covered CSS editors, selectors, comments, and syntax, guiding me through the design of websites. I gained proficiency in inline, internal, and external CSS, mastering attributes like color, background, border, and box models. The course also provided historical insights into CSS. I successfully completed assessments, demonstrating my skills and earning a certificate.

### Back-End Engineering

Experienced back-end engineer with a proven track record in contributing to Lyft's success. Proficient in key responsibilities such as system optimization, database management, and server-side development. Demonstrated ability to design and implement clean architectures for both new and existing components. Skilled in troubleshooting, debugging, and enhancing software performance.

### Cyber-Security Management

Recent graduate with hands-on experience in Cyber Security Management from ANZ Australia, gained through a comprehensive simulation on Forage. Successfully identified cybersecurity threats, investigated suspicious items in emails, and demonstrated proficiency in analyzing Packet Capture files using open-source tools

### HTML Attributes and Tags

Enthusiastic learner with a solid foundation in HTML attributes and tags, acquired through a comprehensive course. Well-versed in the anatomy of HTML tags, I understand their crucial role in structuring web pages and influencing website design. Proficient in embedding diverse elements like text, images, and videos, enhancing web page functionality.

### BUILD RESPONSIVE WEBSITE USING HTML, CSS, JS AND BOOTSTRAP

Accomplished professional with a successful completion of a comprehensive course in building responsive websites using HTML, CSS, JavaScript, and Bootstrap. Adept at creating visually appealing and user-friendly web interfaces by leveraging a combination of front-end technologies. Demonstrated proficiency in designing and implementing responsive layouts to ensure optimal user experience across various devices. Possesses a solid understanding of HTML, CSS, and JavaScript, with hands-on experience in utilizing Bootstrap for enhanced design and functionality. Ready to apply these skills in contributing to the development of dynamic and responsive websites in a professional setting.

### 100 Days Of Code: The Complete Python Bootcamp

Focusing on developing proficiency in Python programming language over a 100-day period. Acquired fundamental knowledge and practical skills in Python, including data types, control flow, functions, object-oriented programming, and handling of external libraries and modules.

### SQL and Relational Databases 101

Introductory course covering SQL and relational databases, gaining expertise in database management, querying, and design. Proficient in SQL operations including DML, DDL, and DQL. Skilled in database creation, normalization, and maintenance using various DBMS platforms. Capable of writing SQL queries for efficient data retrieval and manipulation.
